

Communication & Language

We are learning to use a range of tenses correctly in our speech.

We are developing and extending our vocabulary.

We are learning to follow a story without pictures.

Literacy

We are using our phonic skills to read simple words and sentences and continuing to practise our tricky words.

We are beginning to write simple words and sentences.

New Life & Food Spring 2

Reception

Expressive Arts & Design

We are learning to mix colours to make new colours.

We are learning to express ourselves with a purpose in mind through art, model making, music and dance.

We are learning to look closely at objects and make representations using a variety of media.

Mathematics

We are learning to add and subtract numbers 0-9 with totals up to 20.

We are beginning to record our calculations.

We are continuing to recognise and name 2D & 3D shapes

Personal Social & Emotional Development

We are learning to resolve our own problems with other children.

We are going to talk about things we like/don't like and give reasons why.

Physical Development

We are developing our gymnastics skills using large apparatus.

We are practising forming our letters using the correct sequence of movements.

We are learning about which foods make up a healthy diet

How you can help at home

- * Read with your child at home every night
- * Count to 10 then 20 forwards and backwards
- * Keep practising sounds and tricky words
- * Talk about places they visit and things they do
- * Talk about the changes happening outdoors as new life starts to appear with the coming of spring

Understanding of the world

We are looking at new life in the area around us and introducing the Easter Story.

We are looking at different types of food, where it comes from and how it is made. We will cook and taste a variety of food.

We are learning to program simple technological toys.
